SAN MATEO CREEK BASIN LEGACY URANIUM SITES (A6K6) INFORMATION REQUEST

QUESTIONS

Mining Operations

- 1 Please identify those individuals who assisted in the preparation of this information response. For each individual, provide the following: name, current or last known address and telephone number.

George O. Lotspeich

4011 Mesa Verde Ave NE., Albuquerque, NM 87110 (505) 266-2500

Arlene Anglada

4858 Los Serranos Ct NW., Albuquerque, NM 87120 (505) 382-9173

For each mine listed below, answer questions 2 through 7.

	Known Alias(es)
	Dysart Group, Tana and Alto
	Section 11, SE Shaft

2. Identify and describe any portion of the mine or assets at the mine owned, operated, leased, or mined or explored by the Respondent and the dates during which the mine was owned operated, leased, mined, or explored, including areas where borings were taken and provide copies of all documents evidencing or relating to such ownership, operation, or lease, including but not limited to purchase and sale agreement, royalty payments, deeds and leases including mining leases, and gravel and tailings leases.

Section 11 History

Section 11 was mined by Homestake Mining Company. In settlement of a lawsuit between Cobb Resources and Homestake Mining Co., Cobb was able to use a shaft on SW ¼ of Section 11 as an escape way for Section 12.

After reclamation of Section 11, completed by Homestake Mining Co., the property was deeded to Hydro Resources Company.

- 3 Where not provided as a response to Question 2 above, provide information about each mine including but not limited to the following:
- Property boundaries, including a written legal description; See Attachment #6 and #7.
 - A map identifying the property location; See Attachment #6 and #7.
 - Maps of the mine plans and boring hole locations; Not available at present time.
 - Location and description of surface structures (e.g., protore, waste pile, retention

- ponds, buildings, housing, etc.); See attachment #8.
- e. Location and description of any ground water wells or sources of surface water used in mine operations; All mining was done by Homestake. Southwest Resources Company is not aware of any ground water or sources of water.
 - f. Maps, drawings, aerial photographs of the property. NA
4. For each mine, describe the activities or operations which were conducted by you on that mine and the timeframe in which they occurred. Provide any and all documentation in your possession which describes the operations which occurred at that mine. None was done by Southwest Resources Company.
5. Provide any records on the dewatering of the mine that provide specific information on pump rates, pump station locations, pump sizes and changes in aquifer piezometric heads. The information from Homestake Mining is not available to Southwest Resources Company.
6. Describe what waste by-product(s) were produced during your operations. For each waste by-product identified by the Respondent, describe what you did with these waste by-products.
Unknown.
- a. Specifically, also describe what you did with:
 - i. Uranium protore or uneconomic material NA
 - ii. Any listed or unlisted hazardous substances NA
 - iii. Dewatering or surface water discharge NA
 - b. Provide all documentation which describes how waste by-product was stored, treated, disposed or deposited at or near the property. NA
 - c. For each waste by-product identified, provide a map identifying where on or near the property these wastes were stored, treated, disposed or deposited. NA
7. Identify and describe all reclamation or cleanup efforts made by the Respondent to address waste by-products and/or prevent potential releases of hazardous substances.
NA
- Corporate history
8. Identify all of the Respondent's predecessor corporations. Hydro Nuclear, and Cobb Resources
9. Identify all subsidiaries of the Respondent's predecessor corporations. NA
10. If the Respondent is a corporation, provide the EPA with a copy of the Articles of Incorporation and By-Laws of the Respondent. NA
